**LOGICQUEST TECHNOLOGY, INC.  
NOTES TO FINANCIAL STATEMENTS  
UNAUDITED**

**1. BASIS OF PRESENTATION**

The accompanying unaudited interim financial statements of Logicquest Technology, Inc. (“we”, “our”, “Logicquest” or the “Company”), have been prepared in accordance with accounting principles generally accepted in the United States of America and the rules of the Securities and Exchange Commission, and should be read in conjunction with the audited financial statements and notes thereto contained in Logicquest's Annual Report filed with the SEC on Form 10-K. In the opinion of management, all adjustments, consisting of normal recurring adjustments, necessary for a fair presentation of financial position and the results of operations for the interim periods presented have been reflected herein. The results of operations for interim periods are not necessarily indicative of the results to be expected for the full year. Notes to the financial statements which substantially duplicate the disclosure contained in the audited financial statements for the year ended December 31, 2015 as reported in the Form 10-K have been omitted.

**2. GOING CONCERN CONSIDERATIONS**

During the six months ended June 30, 2016, Logicquest has been unable to generate cash flows sufficient to support its operations and has been dependent on debt raised from a related party and an independent third party. In addition to negative cash flow from operations, Logicquest has experienced recurring net losses, and has a negative working capital and shareholders' deficit.

These factors raise substantial doubt about the Company's ability to continue as a going concern. The financial statements do not include any adjustments that might be necessary if Logicquest is unable to continue as a going concern.

### **3. RECLASSIFICATIONS**

Certain prior year amounts have been reclassified to conform to the current period presentation. These reclassifications had no impact on net earnings and financial position.

### **4. DUE TO RELATED PARTY**

The due to related party is summarized below:

	<u>6/30/2016</u>	<u>12/31/2015</u>

**7. SUBSEQUENT EVENTS**

On March 31, 2016, the Company entered into a Memorandum of Understanding/Letter of Intent with Logicquest Technology Limited, pursuant to which the Company planned to effect a business combination (the "Transaction"). The Transaction may be effected in one of several different ways, including an asset acquisition, merger of Logicquest Technology Limited and the Company, or a share purchase whereby the Company will purchase the shares of Logicquest Technology Limited from its shareholders for cash and/or for shares of the Company. On July 22, 2016, the Company and Logicquest Technology Limited agreed to extend all the deadlines stipulated in the Letter of Intent, being June 30, 2016, to October 31, 2016. The following discussion contains forward-looking statements that reflect our plans, estimates and beliefs. ## **General Overview**

## Results of Operations

*Three and Six Months Ended June 30, 2016 compared to the Three and Six Months Ended June 30, 2015*

We had a net loss of \$241,519 for the six month period ended June 30, 2016, which was \$8,295 more than the net loss of \$233,224 for the six month period ended June 30, 2015. The change in our results over the two periods is a result of an increase in selling, general and administrative expenses.

The following table summarizes key items of comparison and their related increase for the three and six month periods ended June 30, 2016 and 2015:

	Three Months Ended June 30, 2016	Three Months Ended June 30, 2015	Six Months Ended June 30, 2016	Six Months Ended June 30, 2015	Six Months Increase 2016 from 2015

*Revenue*

We have not earned any revenues during the quarter of June 30, 2016 and we do not anticipate earning revenues in the upcoming quarter.

### Liquidity and Capital Resources

As of June 30, 2016, our cash and cash equivalents were nil; total current liabilities were \$3,978,378 and total stockholders' deficit was \$3,952,181.

#### *Working Capital*

	At June 30, 2016	At December 31, 2015
Current assets	\$18,573	\$29,032
Current liabilities	3,978,378	3,739,694
Working capital	<u>\$(3,959,805)</u>	<u>\$(3,710,662)</u>

We anticipate generating losses and, therefore, may be unable to continue operations further in the future.

### Financial Condition

	Six Months Ended June 30		Increase (Decrease) 2016 from 2015
	2016	2015	
Net cash (used in) operating activities	\$—	\$—	\$—
Net cash provided by financing activities	—	—	—
Net decrease in cash during period	<u>\$—</u>	<u>\$—</u>	<u>\$—</u>
Cash balance at end of period	<u>—</u>	<u>—</u>	

#### *Operating Activities*

Net cash used in operating activities during the six months ended June 30, 2016 was \$0 and \$0 during the six months ended June 30, 2015.

#### *Financing Activities*

Cash provided by financing activities during the six months ended June 30, 2016 was \$0 and \$0 during the six months ended June 30, 2015.

To date we have relied on proceeds from the sale of our shares and on loans from officers and directors, related companies and an independent third party in order to sustain our basic, minimum operating expenses; however, we cannot guarantee that we will secure any further sales of our shares or that our officers and directors, related companies or the independent third party will provide us with any future loans. We intend to use debt to cover the anticipated negative cash flows until we can operate at a break-even cash flow mode. We may seek additional capital to fund potential costs associated with possible expansion and/or acquisitions. We believe that future funding may be obtained from public or private offerings of equity securities, debt or convertible debt securities, or other sources. Stockholders should assume that any additional funding will likely be dilutive.

We are not aware of any known trends, demands, commitments, events or uncertainties that will result in or that are reasonably likely to result in our liquidity increasing or decreasing in any material way.

### **Future Financings**

We anticipate continuing to rely on loans from a related company. We may obtain funding through equity sales of our common stock in order to continue to fund our business operations. Issuances of additional shares will result in dilution to our existing stockholders. There is no assurance that we will achieve any additional sales of our equity securities or arrange for debt or other financing to fund our planned business activities.

We presently do not have any arrangements for additional financing for the expansion of our exploration operations, and no potential lines of credit or sources of financing are currently available for the purpose of proceeding with our plan of operations.

### **Off-Balance Sheet Arrangements**

We have no off-balance sheet arrangements that have or are reasonably likely to have a current or future effect on our financial condition, changes in financial condition, revenues or expenses, results of operations, liquidity, and capital expenditures or capital resources that are material to stockholders.

---

### **Critical Accounting Policies**

Our discussion and analysis of our financial condition and results of operations are based upon financial statements which have been prepared in accordance with generally accepted accounting principles in the United States. The preparation of these financial statements requires us to make estimates and judgments that affect the reported amounts of assets, liabilities, revenue and expenses, and related disclosure of contingent assets and liabilities. On an ongoing basis, we evaluate these estimates. We base our estimates on historical experience and on assumptions that are believed to be reasonable. These estimates and assumptions provide a basis for making judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates under different assumptions or conditions, and these differences may be material.

We believe that the following critical accounting policies affect our more significant judgments and estimates used in the preparation of our financial statements.

#### *Revenue Recognition*

Our company's internet connectivity business ceased effective June 30, 2014. Our company has currently no business.

#### *Stock-Based Compensation*

Accounting Standard 718, "Accounting for Stock-Based Compensation" ("ASC 718") established financial accounting and reporting standards for stock-based employee compensation plans. It defines a fair value based method of accounting for an employee stock option or similar equity instrument. In January 2006, we implemented ASC 718, and accordingly, we account for compensation cost for stock option plans in accordance with ASC 718.

We account for share based payments to non-employees in accordance with ASC 505-50 "Accounting for Equity Instruments Issued to Non-Employees for Acquiring, or in Conjunction with Selling, Goods or Services".

#### *Derivative Financial Instruments*

We do not use derivative instruments to hedge exposures to cash flow, market, or foreign currency risks. We evaluate all of our financial instruments to determine if such instruments are derivatives or contain features that qualify as embedded derivatives. For derivative financial instruments that are accounted for as liabilities, the derivative instrument is initially recorded at its fair value and is then re-valued at each reporting date, with changes in the fair value reported as charges or credits to income. For option-based derivative financial instruments, we use the Black-Scholes option-pricing model to value the derivative instruments at inception and subsequent valuation dates. The classification of derivative instruments, including whether such instruments should be recorded as liabilities or as equity, is re-assessed at the end of each reporting period. Derivative instrument liabilities are classified in the balance sheet as current or non-current based on whether or not net-cash settlement of the derivative instrument could be required within 12 months of the balance sheet date.

## Going Concern

We remain dependent on outside sources of funding for continuation of our operations. Our independent registered public accounting firm issued a going concern qualification in their report dated March 30, 2016 (included in our annual report on Form 10-K for the year ended December 31, 2015), which raises substantial doubt about our ability to continue as a going concern.

During the six months ended June 30, 2016 and the year ended December 31, 2015, we have been unable to generate cash flows sufficient to support our operations and have been dependent on debt raised from a related party.

During the six months ended June 30, 2016 and 2015, we experienced negative financial results as follows:

	Six Months Ended June 30,	
	2016	2015
Net loss	\$(241,519 )	\$(233,224 )
Negative working capital	(3,959,805)	(3,457,459)
Stockholders' deficit	(3,952,181)	(3,457,459)

---

These factors raise substantial doubt about our ability to continue as a going concern. The financial statements contained herein do not include any adjustments relating to the recoverability and classification of recorded asset amounts or amounts and classification of liabilities that might be necessary should we be unable to continue in existence. Our ability to continue as a going concern is dependent upon our ability to generate sufficient cash flows to meet our obligations on a timely basis, to obtain additional financing as may be required, and ultimately to attain profitable operations. However, there is no assurance that profitable operations or sufficient cash flows will occur in the future.

### ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

As a smaller reporting company, we are not required to provide the information required by this Item.

### ITEM 4. CONTROLS AND PROCEDURES

Evaluation of disclosure controls and procedures.

We are required to maintain “disclosure controls and procedures” as such term is defined in Rule 13a-15(e) under the Securities Exchange Act of 1934. In designing and evaluating our disclosure controls and procedures, our management recognized that disclosure controls and procedures, no matter how well conceived and operated, can provide only reasonable, not absolute, assurance that the objectives of disclosure controls and procedures are met. Additionally, in designing disclosure controls and procedures, our management necessarily was required to apply its judgment in evaluating the cost-benefit relationship of possible disclosure controls and procedures. The design of any disclosure controls and procedures also is based in part upon certain assumptions about the likelihood of future events, and there can be no assurance that any design will succeed in achieving its stated goals under all potential future conditions. Based on their evaluation as of the end of the period covered by this report, our Chief Executive Officer and Chief Financial Officer have concluded that our disclosure controls and procedures were not effective such that the information relating to our company, required to be disclosed in our Securities and Exchange Commission reports (i) is recorded, processed, summarized and reported within the time periods specified in SEC rules and forms and (ii) is accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, to allow timely decisions regarding required disclosure as a result of continuing weaknesses in our internal control over financial reporting.

As disclosed in our Annual Report on Form 10-K for the year ended December 31, 2015, based on management’s assessment of the effectiveness of our internal controls over financial reporting, management concluded that our internal controls over financial reporting were not effective as of December 31, 2015, due to insufficiently qualified accounting and other finance personnel with an appropriate level of U.S. GAAP knowledge and experience. Management believes that our lack of experience with U.S. GAAP constitutes a material weakness in our internal control over financial reporting. Until such time, if ever, that we remediate the material weakness in our internal control over financial reporting we expect that the material weaknesses in our disclosure controls and procedures will continue.

Changes in internal control over financial reporting.

There was no change in the Company’s internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) that occurred during the quarter ended June 30, 2016 that has materially affected, or is reasonably likely to materially affect, the Company’s internal control over financial reporting.
